CBR, Inc. designs and installs a unique building insulation system. Twenty five years of experience have taught us to custom design your system to accommodate any obstructions in your building. Our experienced installation teams work quickly and cause minimal interference to your ongoing operations. Our 85% reflective insulation system will create an aesthetically pleasing and bright working environment. Your noise levels will be reduced by 75% while eliminating any condensation problems. You will receive energy saving of 35% or more, giving you a two to five year payback on your investment.
